

HUMBOLDT COUNTY

(Source: December 7, 1998 SB 40 Plan - Appendix A)

Humboldt County has reviewed and revised the lands identified for non-federal ownership in the 1984 Humboldt County Policy Plan for Public Lands. However, the Winnemucca Field Office of the BLM is currently amending the land disposal section of the BLM's 1982 land use plan. The BLM's plan amendment is expected to be approved early in 1999.

The BLM's proposed amendment corresponds closely with Table A1. The amendment does differ significantly from lands identified in Tables A2 and A3. The difference could change the disposal status of lands identified by the County for acquisition.

The BLM has suggested that because of the difference in timing for the completion of the Humboldt County Policy Plan for Public Lands and the BLM's land use amendment that County and BLM representatives convene after approval of the BLM's plan amendment. This meeting would be to develop agreement on land disposal proposals described in Tables A1, A2, A3 and the BLM's land use plan amendment. The County has agreed to this recommendation. Until such a meeting between the BLM and the County occurs and agreements reached, this plan represents Humboldt County's proposal to acquire federal lands.

As a matter of policy, Humboldt County believes that federal lands should be made available for state, local government and private uses. The lands listed below have been identified for acquisition by Humboldt County for public purposes, or lands needed for economic expansion and should be made available by the BLM for private development.

Each specific disposal action by the BLM should be reviewed by the local governing body to assure compatibility with local government plans. This procedure includes lands identified in this Appendix and any other lands proposed for disposal by the BLM.

TABLE A3
LANDS IDENTIFIED FOR ECONOMIC DEVELOPMENT (PRIVATE SECTOR)

The following lands were identified in the original Humboldt County Policy Plan for Public Lands and in the Winnemucca District, BLM, Paradise-Denio and Sonoma-Gerlach Management Framework Plan as suitable for disposal after extensive public involvement and concurrence. To provide maximum public benefit, all disposal should be by the most appropriate authority available, with individual land sales, R&PP sales, and exchanges encouraged. Disposal must be completed in coordination with local government governing bodies. These lands are primarily small tracts and checkerboard lands. As specific parcels of public are proposed for sale, site specific information must be made available to the public, and environmental assessments completed.
